DNCA Invest - Beyond Global Leaders - Class I - EUR

A sub-fund of the SICAV DNCA INVEST - ISIN: LU0383782793

This fund is managed by DNCA FINANCE

Objectives and Investment Policy

Essential management characteristics:

International Equities Fund

The Sub-Fund seeks to outperform the MSCI All Countries World Index Net Total Return (Euro) on the recommended investment term.

The Sub-Fund is managed taking into consideration Responsible and Sustainable principles. In this way, the investment process and resulting stock picking take into account internal scoring with respect to both corporate responsibility and sustainability of the companies. Additional information on SRI strategy may be obtained in the prospectus of the Sub-fund. The Sub-Fund's investment strategy is based on discretionary management. The Sub-Fund aims to invest in issuers considered to be the "pillars" or "leaders" in global economy, wherever their geographical location. The Investment Manager seeks to benefit from new structural trends across the globe by taking in issuers that benefit from "secular" growth rather than cyclical growth and issuers poised for gains regardless of the economic climate.

The Sub-Fund will invest at any time within the following limits in:

- Equities or related financial derivative instruments (such as CFD or DPS): 80% to 100 of its net assets,
- Debt instruments: 0% to 20% of its net assets,
- in case of adverse market conditions, the Sub-Fund may invest up to 100% of its net assets in money market instruments,
- up to 10% of its net assets in units and/or shares of UCITS and AIFs.

The Sub-Fund may also invest in securities denominated in any currency. However non base currency exposure may be hedged back to the base currency to moderate currency exchange risks. More specifically, futures and currency forwards may be used for that purposes.

Exchange Traded or OTC derivatives (other than CFD and DPS) can represent up to 40% of the Sub-Fund's net assets, including but not limited to, futures contracts and non complex options negotiated on regulated markets for the purpose of hedging or increasing equity exposure without seeking overexposure.

Benchmark Information : The Sub-Fund is actively managed and uses the benchmark for the calculation of the performance fee and performance comparison purposes. This means the Investment Manager is taking investment decisions with the intention of achieving the Sub-Fund's investment objective; this may include decisions regarding asset selection and overall level of exposure to the market. The Investment Manager is not in any way constrained by the benchmark in its portfolio positioning. The deviation from the benchmark may be complete or significant.

Other important information:

Income is accumulated
The redemption of units/shares may be requested each day.

Recommended investment period:

This sub-fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

|---|---|---|---|---|---|---|

The historical data used to calculate the synthetic indicator may not be a reliable indication of the future risk profile of the UCITS. The risk category associated with this sub-fund is not guaranteed and may change over time. The weakest category does not mean no risk. The risk level of this UCITS is due to exposure to equity and/or fixed income markets. The fund does not benefit from any capital protection or guarantee.

Material risks not taken into account in this indicator:

Credit risk: in the event that an issuer is downgraded, the value of the bonds in the portfolio may fall, thus decreasing the sub-fund's net asset value.

Liquidity risk: on certain markets (notably emerging markets) and in given market situations, the manager may find it difficult to sell certain financial assets.

Risks associated with investing in emerging markets: in certain emerging markets, order centralisation agents may not be regulated by the State or may not be independent from issuers. Investors should be aware that for the sub-funds concerned, problems relating to the registration of management orders may incur charges.

The occurrence of one of these risks may lead to a reduction in the net asset value.

Charges

The charges paid serve to cover the operating costs of the UCITS, including those of marketing and distributing the shares or units. These costs reduce the potential growth of the investments.
