The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

DNCA Invest - Beyond Climate - Class I - EUR

A sub-fund of the SICAV DNCA Invest - ISIN: LU2116701777

This fund is managed by DNCA Finance

Objectives and Investment Policy

Essential management characteristics:

The Product seeks to outperform of the following index denominated in Euro: Euro Stoxx NR (Bloomberg ticker: SXXT Index) calculated with dividends net of withholding taxes reinvested, over the recommend investment term. Investors' attention is drawn to the fact that the management style is discretionary and integrates environmental, social / societal and governance (ESG) criteria.

The investment strategy is based on a climate strategy which combines the classic requirements of risk and financial return with the low carbon transition requirements in line with the Paris Agreement as signed on 22 April 2016 (the "Paris Agreement"). The Product has as its objective sustainable investment within the meaning of Article 9 of SFDR. The investment process take into account internal scoring based on an extra-financial analysis through a proprietary rating model (ABA, Above & Beyond Analysis) developed internally by DNCA. The risk exists that the models used to make these investment decisions do not perform the tasks they were designed to. The use of the proprietary tool relies on the experience, relationships and expertise of DNCA with the "best in universe" method. There may be a sector bias. The Product will proceed to the extra-financial analysis on at least 90% of its securities, while excluding 20% of the worst issuers from its investment universe. The Product aims to align the economy on a path of at least 2 degrees. This objective is materialized by an average decrease of the portfolio carbon intensity of at least 2,5% each year by comparing the carbon intensity of each consolidated company in the Product with the carbon intensity of the previous year. In addition, the investment strategy is oriented towards a contributive economy to the climate issues resulting in avoided CO2 emissions greater than the induced CO2 emissions (scope 1 and 2). In addition, the management style proposed aims to achieve to climate objectives of the Paris Agreement, combined with an approach broadened to other positive impacts relating to sustainable development and, in particular, the Sustainable Development Goals ("SDGs") adopted by the United Nations. The investment process is geared towards long-term performance that integrates all the risks and challenges faced by companies. The investment choices result of a fundamental analysis of companies which, as part of a climate strategy, is combined with an in-depth and detailed analysis of the positioning of each company within the low carbon transition. A proprietary "transition / contribution" climate methodology allows the management team to identify companies that have put in place appropriate efforts to decarbonize their activities in line with the objectives of the Paris Agreement (i.e. "keeping a global temperature rise this century well below 2 degrees Celsius above pre-industrial levels and to pursue efforts to limit the temperature increase even further to 1.5 degrees Celsius"). The results of this proprietary "transition / contribution" climate methodology will be binding on the Investment Manager. Additional information on SRI strategy may be obtained in the prospectus of the Product. The Product may at any time invest in:

- Equities of issuers having their registered office in the Euro zone: from 65% to 100% of its net assets;
- Equities outside the Euro zone: from 0% to 35% of its net assets;
- Equities with total market capitalisation below 200 million euros up to 10% of its net assets;
- Fixed income securities and money market instruments or deposits if market conditions are unfavourable: from 0% to 35% of its net assets;
- Other financial instruments up to 10% of its net assets.

Exposure to exchange risk may reach 35% of the Product's net assets.

The Product may invest up to 10% of its net assets in units and/or shares of UCITS and/or AIFs. The Product may invest in securities denominated in any currency. However non-base currency exposure may be hedged back to the base currency to moderate currency exchange risks. More specifically, futures and currency forwards may be used for that purposes.

The Product may use exchange traded or OTC derivatives up to 25% of the Product's net assets, including but not limited to, futures contracts and non-complex options negotiated on regulated markets for the purpose of hedging equity exposure without seeking overexposure.

The Product is actively managed and uses the benchmark for the calculation of the performance fee and performance comparison purposes. This means the Management Company is taking investment decisions with the intention of achieving the Product's investment objective; this may include decisions regarding asset selection and overall level of exposure to the market. The Management Company is not in any way constrained by the benchmark in its portfolio positioning. The deviation from the benchmark may be complete or significant.

Other important information:

Income is accumulated.

The redemption of units/shares may be requested each day.

Recommended investment period:

This sub-fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The historical data used to calculate the synthetic indicator may not be a reliable indication of the future risk profile of the UCITS. The risk category associated with this sub-fund is not guaranteed and may change over time. The weakest category does not mean no risk. The risk level of this UCITS is due to exposure to fixed income markets. The fund does not benefit from any capital protection or guarantee.

Material risks not taken into account in this indicator:

Credit risk: in the event that an issuer is downgraded, the value of the bonds in the portfolio may fall, thus decreasing the sub-fund's net asset value.

Counterparty risk: the use of OTC derivatives may expose the investor to the risk of default by the counterparty.

Risk of using derivative products: the use of derivative instruments may reduce the net asset value in case of exposure in a direction opposite to that of the market trend.

The occurrence of one of these risks may lead to a reduction in the net asset value.

Charges

The charges paid serve to cover the operating costs of the UCITS, including those of marketing and distributing the shares or units. These costs reduce the potential growth of the investments.

One-off charges taken before or after you invest	
Entry charge	2.00%
Exit charge	0.00%

The percentage indicated is the maximum that may be taken out of your capital before it is invested. In certain cases the investor pays less. You can obtain the actual amount of entry and exit charges from your financial advisor or the establishment with which you place your order.

Charges taken from the fund over a year	
Ongoing charges	1.13%

The ongoing charges are based on figures for the preceding financial year ended 31 December 2023. This percentage may vary from one financial year to another. They do not include: performance fees and transaction charges except in the case of subscription and/or redemption charges paid by the UCITS when it buys or sells units in another investment vehicle.

Charges taken from the Fund under certain specific conditions	
Performance fee	0.00% 20.00% of the positive performance net of any fees above the index Euro Stoxx Net Return with High Water Mark.

For further information on the charges, please see page 68 of the latest version of the prospectus available on the website www.dnca-investments.com.

Past Performance

All charges are included in the performance calculations. The unit/share described in this document was launched in April 2020.

The currency in which the performances are indicated is as follows: EUR.

Past performance is not an indication of future results.

The performance of the other share classes is available on the Management Company's website.
