

DNCA INVEST

SRI EUROPE GROWTH

A selection of quality European growth companies.

- A conviction-based with a limited number of positions (around 40 issuers).
- An investment strategy based on financial and extra-financial analysis.
- A concentrated portfolio invested in companies that, according to the management team's analysis, combine visible and sustainable growth.

INVESTMENT OBJECTIVE

The Sub-Fund's objective is to outperform Pan-European equity markets over the recommended investment period (5 years). The STOXX EUROPE 600 Net Return EUR reference indicator, calculated with dividends reinvested, is provided for a posteriori comparison purposes. Investors' attention is drawn to the fact that the management style is discretionary and integrates environmental, social / societal and governance (ESG) criteria.

INVESTMENT PHILOSOPHY

According to the management team's analysis, the European continent is home to many companies that are leaders in their activities and have demonstrated their ability to generate earnings growth whatever the economic climate.

Conviction-based management based on a rigorous selection process

Backed by a solid knowledge of companies acquired over the years, our managers adopt a purely bottom-up fundamental strategy.

Exposure by sector, geography and capitalization size is based solely on stock selection, and therefore ignores the composition of the reference index.

Investment process

The DNCA Invest SRI Europe Growth sub-fund applies an investment strategy based on active, discretionary management aimed at investing in quality pan-European growth stocks. Based on a proprietary analysis, the selection of issuers is based on 8 defined criteria:

- Future organic growth in excess of 6% p.a. ;
- High barriers to entry (technology, brand, know-how, assets, regulations, etc.) likely to discourage potential new competitors;
- Attractive valuation;
- Improved profitability;
- Abundant cash flow;
- Strong balance sheet ;
- Value creation;
- Quality management team.
